

Reimagine Fashion Processes with SAP S/4HANA Fashion

The Challenge

Fashion is now Digital but COMPLEXITY IS STANDING IN THE WAY

The Opportunity

Introducing S/4HANA Fashion

SAP S/4HANA Fashion is a real-time ERP suite, designed for fashion companies to run simple in a digital and connected world by merging wholesale and retail in an in-memory SAP HANA platform.

<p>Developed natively on the SAP HANA[®] platform for real-time analytics, integration, and application services</p>	<p>Redesigned with highly simplified data models and processes in key areas such as inventory management and stock valuation</p>	<p>Consistent user experience across all functional areas for new ways of working</p>
<p>Empowerment of store associates and store managers with access to key information needed for better customer service and shop-floor operations</p>	<p>Omnichannel order execution and fulfillment based on real-time sales and inventory information</p>	<p>"Industry to core" – one platform that unites various industry solutions for potential synergies and cross-scenarios</p>

Value Drivers: Opportunities for Your Fashion Company

<p>Real-time data and transparency across retail, wholesale and e-commerce</p> <p>Delivers real-time insight into operational data and combines analytics with transactional capability to connect, record, and report live on your business.</p> <p>30% time reduction in decision making</p>	<p>Live inventory management</p> <p>Provides sales associates, store managers, logistics and controllers the same base of data – to keep them informed on stock position and stock values in real-time.</p> <p>30%–40% higher inventory accuracy</p>
<p>Faster Replenishment Processes</p> <p>Accelerate replenishment for distribution centers and stores, leveraging in-memory technology to deliver merchandise to a large number of stores or DCs on a regular basis.</p> <p>3%–5% reduced revenue loss due to stock-outs</p>	<p>Omnichannel Fulfillment</p> <p>Turn into a true customer-centric retail model with a complete view on customer behavior, transactions, and demand signals across channels to provide seamless omnichannel fulfillment and customer service.</p> <p>10% higher inventory accuracy</p>
<p>Advanced available-to-promise (ATP)</p> <p>Identify mass product availability in real time to promise accurate and reliable order dates based on business priority instead of order creation time.</p> <p>10-12% reduction in days in inventory</p>	<p>Contextual Customer Experiences</p> <p>Gain insights into customer sentiments, discover hidden trends, personalize one-on-one offers and influence behavior on all channels with real-time access to all buying preferences.</p> <p>Ability to personalize consumer offering</p>
<p>Accelerated MRP Runs</p> <p>Trigger real-time MRP runs anytime during the day for timely, up-to-date information to help identify supply at risk, and immediately resolve issues.</p> <p>10%–20% reduced overall supply chain planning cost</p>	

Discover S/4HANA Fashion with attune

As the co-innovation partner of SAP Fashion and close collaborator on the SAP S/4HANA Fashion product development, our deep delivery capabilities and extensive knowledge in the SAP ecosystem helps deliver an inside-view to the new solution.

<p>Continuous collaboration with SAP on S/4HANA Fashion</p> <p>Close collaboration on the S/4HANA Fashion product development including continuous feedback based on validation testing.</p>	<p>65+ Global Fashion Implementations</p> <p>Extensive knowledge and involvement in the SAP ecosystem, being involved in almost 70% of all current SAP Fashion projects with a clear understanding of fashion requirements.</p>
